### Background

With so much regulation affecting company car drivers it is easy to fall foul of the law. To prevent this *Safe Driving Plus* provides comprehensive e-learning and assessment tools to help you identify and minimise your drivers' risk.

By using Cardinus' established learning methods, *Safe Driving Plus* constantly reinforces key safety messages and your fleet policies. The cumulative effect is better awareness of the issues - and behaviour change.

Using Cardinus' unique 'Total Risk Reduction' methodology, *Safe Driving Plus* provides each individual driver with the information they need to stay safe and a personal action plan to reduce their risks.

*Safe Driving Plus* can be used as a standalone module or as part of Cardinus' comprehensive driver management program. This includes in-vehicle training, driver licence checks and a wide variety of other services.

### Management features

*Safe Driving Plus* is fully supported by PACE, Cardinus' powerful management module. Features include:

- Easy-to-use risk assessment scoring to help identify employees at risk.
- Tools to monitor training records and identify your employees who have successfully completed their training. PACE will also identify your employees who have not started or not completed their training.
- Advanced automated email capability to encourage participation
- Task led approach to help you evidence how issues have been resolved.
- Charting and sophisticated statistical reporting.
- Fully SCORM compliant

### OBJECTIVES

The aim of this *Safe Driving Plus* course is to reduce your business drivers' risk of being involved in an accident by helping them to drive more safely.
